Video 6 Skill Sheet - Daily Chop-Building Routine for Trumpets

It's very important for trumpeters to build the muscles of the face with practice. Here are several exercises to help you develop super-strong muscles and a great sound. Don't worry if you don't sound good at first. Just do them every day, and you'll get better and better!

Play these exercises along with Ms. T in the video, and on your own. Once you do each exercise, place a check next to it. Can you have 20 checks next to each exercise by the first day of band?
